

At W.A. Grain & Pulse Solutions, we are continually expanding our facilities and are in need of qualified individuals. We purchase various grains such as peas, lentils, fababeans, wheat, rye etc. We then sell them locally, or to our extensive network of global buyers. These grains either get cleaned at one of our facilities, or loaded to rail. We currently have facilities in Alberta, Saskatchewan, and Prince Edward Island. We also load at various rail sidings throughout the provinces. We are currently hiring for our Vanguard, SK location.

Grain Elevator Operator

The Grain Elevator Operator will have the following responsibilities:

- Operations including loading rail cars & containers
- Co-ordinating producer deliveries
- Procedure compliance (safety, maintenance)
- Grain cleaning operations
- Quality control (grain sampling & grading)

The Individual we are looking for must possess the following skills and experience:

- Recent experience in grain elevator, feed mill or cleaning plant an asset
- Mechanical aptitude with machinery
- Superior organizational skills
- Excellent communication skills
- Must be literate with computers

At W.A. Grain we are “Harvesting a path to a healthier world”, and are looking for people who share the same passion for customer satisfaction. This position is fast paced and vibrant. It will at times require quick and suitable decisions to be made on the spot. It will be a combination of mental and physical duties.

Salary will be based on experience. We offer benefits and RRSP contributions after a 3 month probation period. We thank all candidates for their interest. However, only qualified candidates will be contacted. We are an equal opportunity employer.

Submit your resume detailing how your knowledge, skills and abilities match what we are seeking to:
